

FREIGHT.AERO

Expand your e-business

One site connecting to carriers who move up to 80% of the world's air cargo, FREIGHT.AERO offers the air cargo industry an all-in-one solution for making new bookings, managing existing bookings and performing related transactions. The service is at www.FREIGHT.AERO.

Benefits

- Promoted by CHAMP to over 10,000 forwarders
- Neutral brand helps drive adoption
- Real-time responses to booking requests and air waybill transactions
- Open for business 24/7 and free to forwarders
- Less data entry and better accuracy as the service remembers entries
- Leverages tight integration with Cargospot and Traxon

Doing business faster, better and at lower cost

Who wants to book via telephone or fax anymore? Your clients expect to book at any time on any device. They want powerful functionality including the ability to capture e-air waybills and security information with minimal rekeying. They expect online business to help expedite shipment acceptance and processing. They also want one site from which to see options from all their carrier partners, and then to book and manage shipments.

FREIGHT.AERO gives your clients all this while improving data quality, speeding acceptance, and dramatically reducing your costs of booking and master air waybill entry.

Reach new business while staying in control of your distribution

Because CHAMP is promoting this service, you benefit from deep connectivity to CHAMP and other cargo systems, and to thousands of forwarders. Those can help you reach new clients and to grow e-business especially outside your home market.

With FREIGHT.AERO, you remain in control of your digital relationships as you authorize access by forwarder branch office. You pay only for the bookings you receive so costs relate to savings. And, as there are no charges for your clients, they will find it easy to do e-business with you.

Turbo-charge your digital business.

FREIGHT.AERO™

Features
