

# Traxon Multi-Carrier API

Instant connectivity to 25+ airlines via a single API

*Traxon Multi-Carrier API empowers software houses and technically-advanced forwarders to instantly connect with their airline partners from within their core systems.*

## Benefits

- Connects to 25+ airlines including many of the largest carriers running a variety of cargo systems
- Instant access to client-specific rates and availability
- Saves the need to manage multiple airline connections
- Allows for quicker response to customer requests
- Eliminates the need to manually re-enter information into third party services

## Features

- Integrates with your existing cargo management system
- Configurable and customizable to your specific needs
- Allows you to select partner carriers, manage commodities, and handle air waybill stock

Traxon Multi-Carrier API is an innovative solution that currently connects to over 25 airlines running a variety of core cargo systems. It is designed for software houses wanting to integrate shopping and booking functionality into their in-house processes, eliminating the need to re-enter information into third-party services.

The service can help users to secure the best available rates with unparalleled speed and efficiency.

### STREAMLINE AIR CARGO BOOKING WITH NEW TRAXON MULTI-CARRIER API

Traxon Multi-Carrier API is an innovative and flexible service that equips users with instant connectivity and booking and shopping functionalities in a streamlined, configurable interface.

By integrating with existing cargo management systems, Traxon Multi-Carrier API enhances efficiency and simplifies operations by removing the complexities of managing multiple airline connections.

This translates to significant time and cost savings, optimizing operations and enhancing profitability for air cargo businesses across the supply chain.

Explore Traxon Multi-Carrier API and enjoy numerous competitive benefits today.

# Our Portfolio

CHAMP Cargosystems provides the most comprehensive range of integrated IT solutions and distribution services for the air cargo transport chain. Our portfolio spans Cargo Management Systems, messaging and integration services through our Community Integration Platform and a comprehensive suite of eCargo solutions. These include applications to meet customs and security requirements, quality optimization, as well as e-freight and mobility needs. The products and services are well known under the Cargospot and Traxon brands.
